

EPSON®

A Printer That's Made for Whatever You Make

SureColor® F-Series

Dye-Sublimation Printers

Make Quality Products That Help Your Business Make Its Mark

From the ground up, SureColor F-Series dye-sublimation printers are tailor-made for performance, versatility and superior print quality and are engineered for reliability—in other words, they're the printers you need to help your business grow. From the hardware to the supplies, our components are expertly crafted to work together seamlessly to bring high-end features to production-class jobs for your project, product or material.

The #1 Dye-Sublimation Printers in North America¹

Our high-performance, versatile 44" and 64" digital dye-sublimation transfer printers are powered by advanced PrecisionCore® technology to serve the unique needs of businesses of all sizes. Designed to maximize productivity, SureColor F-Series 4-color and 6-color models generate fast output, producing high-quality images quickly and efficiently with UltraChrome® DS Ink.

Made to Work for You

Carefully designed to deliver business-boosting performance and worry-free reliability, making them the #1 dye-sublimation printers in North America¹.

Made to Maximize

Designed to maximize productivity at a low operating cost—and help you expedite your processes, expand your capabilities and exceed your business goals.

Made for Variety

Offering tremendous versatility for a broad portfolio of products—a true print solution made for apparel, signage, décor, promotional products and more.
