

INK COMPATIBILITY

3767 WrapIt Satin is a premium inkjet coated gloss paper specifically designed for high-speed production environments. This high-performance paper requires no pre or post coating. It has the look and feel of a top-quality offset paper producing high resolution full color graphics and fine line detail. Superior coating technology allows for maximum production speeds, lowered ink consumption and unprecedented dry times. 3767 WrapIt Satin can be used to create highly personalized printed content in no time without cockling, offsetting or bleeding.
