

The Graphik blade is a double ground cutting edge with special tip design, to increase durability and reduce tip breakage.

Supplied in packs of 100 and suitable for cutting all types of materials especially tougher materials where extra stability is required. Use in the Graphik tool head on all Evolution3 cutters.

- Also for use in the vertical action Graphik blade holder (VABHG) in Evolution E2, Javelin Integra, Javelin Series 2 and Sabre Series 2
