

Replacement blades for SteelTrak V-grooving tool

Blades manufactured from top quality hardened high-carbon tool steel for the SteelTrak V-groove attachment. The V-groove attachment is for fast, easy and economical construction of sign trays, self-standing displays, exhibition stands and boxes. Can be used on printed or unprinted aluminium composite without leaving debris or rough, burred edges.

- Fits onto STVG2-STVG6 V-groove attachments for any size of SteelTrak
- Blades supplied in packs of five
